evening this Association gave their inaugural performance, and thereby dedicated their new hall, at Fifth and Gaskill streets, which has hall, at Fifth and Gaskill streets, which has been fitted up in grand style, and reflects great credit on those who superintended it. Private boxes, new scenery, finely ornamented proscenium drop-curtain, and everything appertaining to make it a first-class place of entertainment, has been provided. The comfort of the audience has been taken into consideration, and seats are furnished that will please the most fastidious.

The performance last evening was a decided success, Goldsmith's comedy of She Stoops to Conquer was rendered in a manner exceedingly good for amateurs. Mr. J. Brook as "Young Marlowe," Mr. William H. Andrews as "Mr. Hardeastie," E. E. Huifish, Jr., as "Tony Lumpkin," and Miss Clare and Miss Nevill, were excellent. Of the others, the less said the better. The afterpiece, adapted by D. W. Farre, entitled The Live Indian, excited a great deal of laughter, the acting being fair.

We understand that Mr. William Wheatley, of New York, after whom the 'Association is pagent a short

of New York, after whom the Association is named, made it a handsome present a short time since, in order to further the plan of fitting up the hall in a manner becoming a firstclass organization. The orchestra did exceedingly well, considering they have not been playing together long; but we would advise them, before they advance further, to obtain a respectable "winding-up" to the airs.

Performances will be given at the hall every Wednesday evening.

WANTED A HAT .- John McArthur, a young man, became impressed with the idea that, as his hat was old, he required a new one, and that the cheapest mode was to steal it. About half-past four o'clock yesterday afternoon ne stepped into a hat store at Fifteenth and Shippen streets, threw off his old cap, and appropriated, viet armis, a fine dress hat, notappropriated, viet armis, a fine dress hat, not-withstanding the proprietor earnestly remon-strated against this mode of procedure, but was kept in abeyance by threats to the effect that he would be piaced in an unenviable posi-tion if he did not "shut up." McArthur left, but was soon arrested by Officers Garrison and Sameliuck, of the Fifth District, and was taken to the Station House, but in so doing the officers found it necessary to use their clubs, as McArthur was disposed to kick, bite, punch, and swear to a degree that was not at all gratiand swear to a degree that was not at all grati

Alderman Swift committed him to answer at Court, in default of \$400 bail for the larceny, and also in a like amount for an assault upon

DIFFERING OPINIONS .- Charles Schneider is the director and owner in fee simple of a lager beer and "sauer wein" establishment, No. 2025 Germantown road. He deals out those pleasurable decoctions to his brother Teutons, and stronger beverages to his friends the Celts. let consequences be what they may. On Tuesday evening, after one of the aforesaid had gradually enlarged bis already bulky frame upon beer, and decreased his common sense thereby, a question arose as to whether or not Schneider would purchase ice from the bulky individual during summer. On this question a decided coolness arose between the two, ther came a reaction in a warm dispute, and finally Mr. Schneider sought repose upon the floor of his own establishment, induced so to do by having a pitcher and a number of glasses dashed upon his upper works, and badly injuring his left eye. The bulky individual, named Philip Shimel, was held to answer by Alderman Cloud, for this unwarranted display of pugilistic capabilities.

INTEMPERANCE AND STABBING .- There seems to be a direct affinity between intemperance and assaulting with dangerous weapons—the one as cause; and the other very generally as eff.ct which is proven by the number of savage assaults. Mary Jane Wellington, having deliberately, by the use of copious drinks, put herself into a state of semi-intoxication, like all persons in a similar state took unbrave at all persons in a similar state took umbrage at at Sixth and Bedford streets. She drew a large clasp knife, and attempted to make way with him. He, being biased against such an action, got away, but not altogether safe, as he sustained painful injuries in the shape of ugly wounds on his hands and wrists Sergeant Jeffries arrested Mary Jane, who was committed to answer by Alderman Tittermary in details of \$800 ball

A BAD LITTLE GIRL.-Lydia Ewen, a girl aged eleven years, of nowhere pasticularly, was brought up by Sergeant Johnson for a lar-ceny of clothing, etc. in the vicinity of Sixth and Bedford streets. It seems that Lydia has by her own application, been furnished with good places among kind people to aid in work about the house, but has been decidedly ungrateful in causing trouble by the volubility of her tongue, believing to the contrary of the old adage, "That little girls should be seen and not heard." Within the past two weeks she has had four different places, and has leit each one in an unenviable state of domestic turmoil. Alderman Toland sent her to the House of Refuge, to obtain, if possible, a more healthful growth of morals, and gain a more genial and affable disposition.

ARREST OF A GENERAL THIEF .- This morn-ARREST OF A CHESCHAL THISF.—THIS INDITION OF THE PROPERTY OF A CHESCHALL THISF.—THIS INDITION OF THE PROPERTY sneak, and yet he often works boidly, as in an operation last night, which led to his arrest. About six o'clock he walked familiarly, into the store of Morgan & Co., No. 519 Market street, and took out of a case of goods just opened five pleces of calico. Alderman Hibberd committed nim for a hearing before Alderman Beitler this afternoon, at two o'clock

Suspicion of Larceny .- Scott & Co., the proprietors of a flour store on Frankford road, near Palmer street, yesterday morning sud-denly missed from their money-drawer the sum of \$40 in bilis and small change. Officer Quick being informed of the circumstance, soon after arrested two boys, Charles Smith, aged eleven, and James McCormick, aged sixteen, on suspicion of being the persons who committed the robbery, as they were seen, as it is alleged, hanging about the premises and in the store just before the theft was discovered. Alderman Cloud, after a hearing, committed each in default of \$600 ball to await a further investigation.

LABORNY OF CALICO .- James Kelly, evidently married, from the fact that he steals calleo, was arrested last evening for purloining seven pieces of it from Mesars, Morgan & Co., No. 519 Market street. James walked into the store, picked up treet. James walked into the store, picked up the goods in question, and walked ont, but not unobserved. An officer was requested to look after him, which he did in rather a summary manner. The individual's right name is James O'Brien, and he has the reputation of being a professional sneak thief. He will have a hearing to-day, when, instead of presenting his wife with a new dress, he will be provided with one himself, i. c. a prison robe.

MR. HABELMAN'S CONCERT .- This favorite German tenor announces a grand concert at the Foyer, which we think will be too small for his audience. He brings with him a new soprano, Miss Bebee, from New York, where her first season has been a continued success. Mr. Wheat, a brilliant planist from Leipsic and Paris, who is compared to Gottschalk in his style of playing, and the celebrated violinist, siyle of playing, and the celebrated violinist, Mr. Poznacski, who is too well known to re-quire any notice from us.

BREACH OF ORDINANCE.-Quite a number of BREACH OF ORDINANCE.—Quite a number of persons were attested in and about the Farmers' Market, at Twelfth and Market streets, for breach of the ordinance forbidding the sale of fish, oysters, etc., on the street, and any obstruction of the public highway, to all of which the parties plead guilty. Alderman Morrow fined each, and held them to keep the peace.

LECTURE To-NIGHT .- We would make a spe LECTURE TO NIGHT.—We would make a special announcement to our friends of the lecture to be delivered this evening, at the Musical Fund Hall, by Rev. T. De Witt Talmage, under the auspices of the "Philalethean Literary Association." We feel confident that all who attend will be amply repaid. Lecture to commence at 8 o'clock. Tickets may be obtained at the door.

NEW AND USEFUL INVENTION—A FIRE EX-Wiru.-Improvements are continually being made in every branch of the mechanic made in every branch of the mechanic arts, with varying success, according to their respective merits. But an invention lately completed and successfully tried, and found fully up to its original intent, is the new fire-extinguisher, which has attracted the attention of our citizens for the past week. The noticeable features about it are its small size, its similar forms. plicity, and its efficacy in extinguishing fires. It consists simply of an apparatus sylindrical in shape, with the dimensions of a common in shape, with the dimensions of a common water bucket, and not exceeding seventy pounds in weight, so that one can strap it upon his back, and with the gutta-purcha tube in one hand, and the other hand upon the valve, a portable engine is ready. The mode of extinguishing a conflagration is at once so simple, and yet has such immediate effect, that all are astonished who behold it. At the end of the gutta-percha tube there is a small apparatus which distributes the water in minute streams, like unto spray, which is strongly impregnated with carbonic acid gas that will queuch any fire on almost immediate contact. The inven-tion is of French origin, and throughout all the provinces of Europe is coming into requisi-tion. A number of experiments have been tried in this city during the past week, one at Twentieth and Coates streets, where a large fire of the most combustible articles, coal-oil bar-rels, was extinguished in less than ten minutes. Cooke, Esq., Robert Morris, and other promi-nent gentlemen, in the vicinity of the "Jay Cooke" mansion, which resulted to the satis-faction of all present. A committee, including Fire-Marshal Blackburn, has been appointed o report on the merits of the invention to
